### OVERVIEW

The archaeology program at Colorado State University focuses on the Americas and includes prehistoric and historic archaeology. The three faculty members of this subdiscipline have expertise in:

- Rocky Mountain and Plains Archaeology
- Paleoindian Studies
- Hunter-Gatherer Ecology
- Public Archaeology
- Inka and Spanish Empires
- Mining Communities
- Mesoamerican Archaeology
- Landscape Archaeology

### PROGRAMMING

Special resources include the Center for Mountain and Plains Archaeology; the Institute for Society, Landscape, and Ecosystem Change; and the Cultural Resources section of the Center for the Ecological Study of Military Lands.

The archaeology program sponsors an annual field school each summer and houses the CSU Archaeological Repository.

### FACULTY

Archaeology faculty members:

- Dr. Chris Fisher
- Dr. Jason LaBelle
- Dr. Mary Van Buren
POTENTIAL OCCUPATIONS

The Archaeology concentration offers a broad background that can prepare students for a number of occupations. Our graduates have found opportunities in public, private and government sectors. Potential jobs include cultural resource management (CRM) and museum positions.

Many careers do require additional coursework and education and a number of our students go on to immediately pursue advanced degrees.

COURSEWORK

- ANTH 140 Introduction to Prehistory
- ANTH 350 Archaeology of North America
- ANTH 351 Archaeology of Europe and Africa
- ANTH 352 Geoarchaeology
- ANTH 359 Colorado Prehistory
- ANTH 360 Archaeological Investigation
- ANTH 450 Hunter-Gatherer Ecology
- ANTH 451 Andean Archaeology and Ethnohistory
- ANTH 452 Archaeology of Mesoamerica
- ANTH 453 Impacts on Ancient Environments
- ANTH 455 Great Plains Archaeology
- ANTH 456 Archaeology and the Public
- ANTH 457 Lithic Technology
- ANTH 460 Field Class in Archaeology
- ANTH 461 Anthropological Report Preparation
- ANTH 465 Zooarchaeology
- ANTH 478 Heritage Resource Management
- ANTH 492A Seminar in Archaeology
